Sales of our core fixed indexed annuity product were \$551 million in the current period, an increase of 26% over the prior year quarter. On a sequential basis, FIA sales increased 14% as compared to the fiscal fourth quarter 2016. FIA sales levels in recent quarters reflect continued strong and productive partnerships with our independent marketing organizations ("IMO's").

Sales of multi-year guarantee annuities ("MYGA") were \$97 million in the current quarter as compared to \$52 million in the same period last year. Total annuity sales were \$648 million for the current quarter, an increase of 33% over the prior year quarter.

Indexed universal life sales in the quarter were \$17 million, an increase of 31% compared to \$13 million last year. This increase reflects FGL's efforts to grow our IUL business with expanded distribution.

Investment Portfolio Performing Well

Net investment income was \$240 million for the quarter, an increase of 8% compared to \$222 million for the same period last year. This growth was right in line with the increase in average assets under management ("AAUM"), which were up \$1.5 billion or 8% over the prior year from sales and stable policy owner retention trends.

The average earned yield on the total portfolio in the quarter was 4.85%, consistent with 4.87% in the prior year quarter. Asset purchases during the quarter were \$1.2 billion at an average yield of 4.78%. Asset purchases during the current quarter were primarily in investment grade corporate bonds and structured securities. The average NAIC rating for the portfolio remains approximately 1.5.

Net investment spread across all product lines increased 15 basis points to 229 basis points, compared to fiscal first quarter 2016. Net investment spread in the current quarter for fixed indexed annuities was consistent with recent performance at 300 basis points.

Agreement and Plan of Merger with Anbang Insurance Group Co., Ltd. ("Anbang")

On November 8, 2015, FGL and Anbang entered into a definitive merger agreement (the "Merger Agreement") pursuant to which Anbang will acquire all outstanding shares of FGL (the "Merger") for \$26.80 per share in cash, without interest. On November 3, 2016, FGL and Anbang extended the outside termination date for the completion of the merger to February 8, 2017. Accordingly, either party may terminate the merger agreement if the closing of the merger does not occur prior to February 8, 2017. The parties are in discussions regarding an extension of the outside termination date beyond February 8, 2017. We expect to make an announcement on or about February 9, 2017 regarding the outcome of our discussions.

The Merger remains subject to the receipt of regulatory approvals from the Iowa Insurance Division, the New York Department of Financial Services and the China Insurance Regulatory Commission ("CIRC"). The parties have obtained requisite regulatory approvals for the Merger from the Vermont Department of Financial Regulation and the Committee on Foreign Investment in the United States ("CFIUS"). The parties will not be required to file a notification of the Merger under the Hart-Scott-Rodino Antitrust Improvements Act of 1976, as amended, due to an available exemption.

Non-GAAP Measures

Management believes that certain non-GAAP financial measures may be useful in certain instances to provide additional meaningful comparisons between current results and results in prior operating periods. Reconciliations of such measures to the most comparable GAAP measures are included herein.

AOI is calculated by adjusting net income to eliminate (i) the impact of net investment gains including other-than-temporary impairment ("OTTI") losses recognized in operations, but excluding gains and losses on derivatives hedging our indexed annuity policies, (ii) the effect of changes in the interest rates used to discount the FIA embedded derivative liability, and (iii) the effect of change in fair value of the reinsurance related embedded derivative. All adjustments to AOI are net of the corresponding VOBA and DAC impact. The income tax impact related to these adjustments is measured using an effective tax rate of 35%, as appropriate.

While these adjustments are an integral part of the overall performance of FGL, market conditions impacting these items can overshadow the underlying performance of the business. Accordingly, we believe using a measure which excludes their impact is effective in analyzing the trends of our operations. Our non-GAAP measures may not be comparable to similarly titled measures of other organizations because other organizations may not calculate such non-GAAP measures in the same manner as we do.

Net investment spread is the excess of net investment income earned over the sum of interest credited to policyholders and the cost of hedging our risk on FIA policies.

Average assets under management ("AAUM") is the sum of (i) total invested assets at amortized cost, excluding derivatives, (ii) related party loans and investments and (iii) cash and cash equivalents at the end of each month in the period divided by the number of months in the period.

Book value per share excluding AOCI is calculated as total stockholders' equity excluding AOCI divided by the total number of shares of common stock outstanding.

Sales are not derived from any specific GAAP income statement accounts or line items and should not be viewed as a substitute for any financial measure determined in accordance with GAAP. For GAAP purposes annuity sales are recorded as deposit liabilities (i.e. contract holder funds). Management believes that presentation of sales as measured for management purposes enhances the understanding of our business and helps depict longer term trends that may not be apparent in the results of operations due to the timing of sales and revenue recognition.

While management believes that non-GAAP measurements are useful supplemental information, such adjusted results are not intended to replace GAAP financial results and should be read in conjunction with those GAAP results.

Conference Call and Earnings Release

In light of the announced merger with Anbang, FGL has elected to discontinue conference calls to discuss quarterly and annual results, pending the closing of the transaction. FGL will continue to issue its earnings press releases and quarterly financial supplement.
